BEFORE ME, the undersigned authority, on this day personally appeared JUDITH P. KANE, who states that all information contained in this affidavit is true correct and complete.

My name is JUDITH P. KANE. I am a physician in practice in Bedford, Texas. REBECCA RUTH WHITE has my patient since July of 1995.

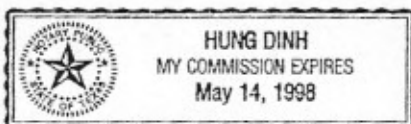

I have been a physician since July, 1982. My practice is primarily in the assessment, counseling, and treatment of person's with emotional illnesses.

Based upon my treatment of REBECCA RUTH WHITE, I have formed the following diagnosis: REBECCA RUTH WHITE is suffering from a Major Depressive Disorder. He condition interferes with her attention span and memory. My prognosis is that Mrs. White will probably improve gradually over a period of several months and make full recovery within six (6) months to one year.

It is my medical opinion, based upon reasonable medical probability, that not only would a hearing be harmful to Rebecca White in her current condition, but she is unable to give proper testimony at such hearing.
